

# Master prompt

Create a premium GitHub Profile README hero banner entirely in pure SVG.

The output MUST be responsive, optimized for GitHub, and look exactly like a high-end developer profile.

=====  
GENERAL LAYOUT  
=====

Canvas:

- 1180 × 610
- Rounded corners
- Modern spacing
- Perfect alignment

Split into two sections.

LEFT SIDE

Occupies around 38%.

Contains:

- Large animated ASCII portrait.

The ASCII should:

- reveal line-by-line
- have typing animation
- include scanline effect
- glowing gradient
- cursor blink
- cyber terminal feeling

ASCII uses gradient colors instead of plain text.

Gradient slowly shifts between colors.

ASCII should slightly float.

RIGHT SIDE

Professional terminal window.

Include:

Greeting

Hi 🖐️  
I'm {NAME}

Animated typing text

Example:

Frontend Engineer  
Full Stack Developer  
Open Source Contributor  
UI Engineer  
AI Enthusiast

Each phrase types character-by-character.

Below that:

Location  
Education  
Current Focus  
Portfolio  
Email

Each item reveals sequentially.

Then:

Skills section

Display glowing pills.

Examples

React  
Next.js  
Node.js  
TypeScript  
Tailwind  
Python  
Docker

Postgres  
AWS  
Git  
Figma

Hover effect:

pill slightly enlarges  
glow increases

Bottom:

Social icons

GitHub  
LinkedIn  
Twitter  
Portfolio

Minimal glowing icons.

=====

ANIMATIONS

=====

Everything must animate.

ASCII

Reveal line-by-line

Gradient moves continuously

Typing cursor blinks

Terminal

Typing animation

Sequential reveal

Cursor blinking

Background

Floating radial gradients

Noise texture

Moving scanline

Tiny animated particles

Glass reflection

Border shimmer

Subtle floating glow

Nothing should feel static.

=====  
VISUAL STYLE  
=====

Glassmorphism

Background blur

Soft reflections

Rounded corners

Thin glowing borders

Modern premium UI

Depth using shadows

No flat colors.

Everything should feel like Apple + Linear + Vercel.

=====  
DARK MODE  
=====

Background

#030712

Panels

#0F172A

Border

rgba(255,255,255,.08)

Text

#F8FAFC

Muted text

#94A3B8

Accent Gradient

#7C3AED

↓

#22D3EE

↓

#10B981

ASCII

Animated cyan-purple gradient.

Glow

cyan + violet.

Background glow

Blue

Purple

Emerald

Very subtle.

=====

LIGHT MODE

=====

Background

#FFFFFF

Panels

#F8FAFC

Border

rgba(15,23,42,.08)

Primary text

#0F172A

Secondary text

#475569

Accent Gradient

#2563EB

↓

#06B6D4

↓

#10B981

ASCII

Blue → Cyan gradient.

Glow should be softer than dark mode.

Background

Very subtle radial gradients.

Soft shadows.

Glass effect remains.

=====

## SVG REQUIREMENTS

=====

Use ONLY

linearGradient

radialGradient

filter

mask

clipPath

animate

animateTransform

animateMotion

No JavaScript.

Everything must be SMIL animations.

GitHub compatible.

=====

## MICRO ANIMATIONS

=====

✓ Border shimmer

✓ Gradient movement

- ✓ Floating particles
- ✓ Typing cursor
- ✓ Scanline sweep
- ✓ Glow pulse
- ✓ Sequential reveal
- ✓ Floating ASCII
- ✓ Animated gradients
- ✓ Noise overlay
- ✓ Glass reflections

=====

QUALITY

=====

The SVG should look like a \$500 GitHub profile header.

Extremely polished.

Minimal.

Elegant.

Modern.

Premium.

Pixel-perfect.

No cartoon style.

No unnecessary colors.

Everything should feel like GitHub + Vercel + Linear + Apple Design.

Generate TWO separate SVG files:

1. dark.svg

2. light.svg

Both should have identical layout and animations while only changing the color palette to suit dark and light GitHub themes.
